

## HP Training Transition

I recently spoke with my peers in Houston in regards to the working relationship I have developed with Shelly Mellomida in providing HP Roseville employees with New Horizons training products and services. I spoke of the extraordinary customer service I have received from her during the past few years. As a result, the workforce development folks in Houston have expressed a desire to continue and further develop this working relationship upon the HP Roseville to Houston transition.

I would like to request that I continue to work exclusively with Shelly Mellomida. I have ALREADY developed a strong working relationship with her. Therefore, she ALREADY HAS the knowledge and history of my initiatives as well as new initiatives to implement.

Please advise if this is possible.

**Thanks,**
